<p>Purpose and intended outcomes of this work</p> <p>For young people to have access to health advice and to a health professional at the service.</p>	
<p>Description of what was carried out in this piece of work (the intervention/s)</p> <p>Young people are provided with a range of health information. A nurse, funded by health is based within the Leaving Care Team and carries out health assessments for young people up to 18. The nurse provides information and advice for all young people on a broad range of health issues as well as smoking cessation sessions, and pregnancy and Chlamydia screening.</p> <p>The benefit of having a health professional based within the service, is that young people can also have access to other Young People's Support Services whilst they are in the premises, or via the health professional - housing, welfare rights, substance misuse help etc.</p>
